Tuition Classification Information
University System of Georgia students are responsible for registering under the proper tuition classification. In general, classification of in-state status for tuition purposes requires an individual to have established domicile in Georgia for a minimum of 12 consecutive months immediately preceding the first day of classes for the term in which the student plans to enroll.
Domicile is defined as a person's present, permanent home where the individual intends to stay indefinitely and to which the individual returns following periods of temporary absence. Temporary residence does not constitute the establishment of one's domicile.
Residency is defined as the state and country where an individual currently lives. An individual may reside in Georgia without having established domicile in the state. See above definition of domicile.
Have you established and maintained domicile in Georgia (according to the definition above) for at least 12 consecutive months immediately preceding the first day of classes for the term in which you plan to enroll?
O Yes
O No
If you are under the age of 24, do you have a parent(s) or U.S. court-appointed legal guardian who has established and maintained domicile (according to the definition above) in Georgia for at least 12 consecutive months immediately preceding the first day of classes for the term in which you plan to enroll?
O Yes O N/A - over age of 24
O No
Legal Resident of Georgia? Yes No If yes, for how long? If no, what state? If no, what state?
Native language Primary language spoken at home Note: For fee assessment purposes, additional documentation to support the above residency may be requested.
All students seeking in-state tuition rates must provide evidence of lawful presence in the United States. To view a list of acceptable documentation needed to prove lawful presence, please go to Admissions web page.
