## Potentially Hazardous Biological Agents Risk Assessment Form (6A)

Required for research involving microorganisms, rDNA, fresh/frozen tissue (including primary cell lines, human and other primate established cell lines and tissue cultures), blood, blood products and body fluids.

SRC/IACUC/IBC approval required before experimentation.

Title of Project  To be completed by the QUALIFIED SCIENTIST/DIRECT SUPERVISOR in collaboration with the student researcher(s). All questions are applicable and must be answered; additional page(s) may be attached.				
2.	Describe the site of exp	escribe the site of experimentation including the level of biological containment.		
3.	Describe the procedures that will be used to minimize risk (personal protective equipment, hood type, etc.).			
4.	What final biosafety level do you recommend for this project given the risk assessment you conducted?			
5.	Describe the method o	f disposal of all cultured m	naterials and other potentially hazardous biological agents.	
SECTION 2: TRAINING  1. What training will the student receive for this project?				
2.	Experience/training of Direct Supervisor as it relates to the student's area of research (if applicable).			
	<ul> <li>Experimentation on the microorganisms/cell lines/tissues to be used in this study will NOT be conducted at a Regulated Research Institution, but will be conducted at a (check one)BSL-1 orBSL-2 laboratory (include a copy of the checklist for BSL-2). [This study has been reviewed by the local SRC and the procedures have been approved prior to experimentation.]</li> <li>Experimentation on the microorganisms/cell lines/tissues to be used in this study will be conducted at a Regulated Research Institution and was approved by the appropriate institutional board prior to experimentation; institutional approval</li> </ul>			
	forms are attached. Origin of cell lines:		Date of IACUC/IBC approval	
	Experimentation on the microorganisms/cell lines/tissues to be used in this study will be conducted at a Regulated Research Institution, which does not require pre-approval for this type of study. The SRC has seen and approved the research plan and supporting documentation and acknowledges the accuracy of the responses above.			
CERTIFICATION - To be SIGNED by the QUALIFIED SCIENTIST or Direct Supervisor				
р			upporting documentation and acknowledges the accuracy of the information neck one)   BSL-1/ BSL-2 study, and will be conducted in an appropriate
