

Transfer of Credits from other Institutions:

Transfer credits are normally accepted for college work earned at regionally accredited colleges and universities, provided the courses are comparable to the Georgia Highlands College curriculum. Use our Transfer Equivalency Tool to get a general idea of how the courses you have taken at other institutions may transfer to Georgia Highlands College. *The tool is for reference only.* The information contained in the tool is updated regularly and is subject to change. https://ghcservices.highlands.edu:9986/SCORE/trans_equiv.find_state

For logistical reasons, not all courses from a given institution may appear on the tool. The absence of a course from the database does not necessarily preclude transferability; similarly, the inclusion of a course in the database does not guarantee transferability. Transfer credit is not guaranteed. Credit is considered on an individual basis. Additional information on the transfer of credits is available at the following link.

<https://sites.highlands.edu/registrar/transfer-evaluation-and-credit-by-examination/>

If you have questions about any course not included in your GHC score card record, then contact the admissions office at registrar@highlands.edu

Transfer of GHC Credits to other Institutions:

If you will be transferring credits taken at GHC to another institution, the accepting institution determines which courses will transfer. You are encouraged to contact that institution for additional information.

Legislative Requirements

All students seeking a degree from a University System of Georgia institution must complete the State of Georgia legislative requirements. The legislative requirements may be satisfied by completion of POLS 1101 and HIST 2112 or the appropriate exemption exam(s) through the Social Sciences Division.
