**Please indicate in detail how the conditions of the Honors Contract were or were not met. Attach additional pages as needed.** The student met the conditions by completing an in-depth slide presentation on the text and context of Voltaire's *Candide*, after consulting with me for planning and revision of the project during our meetings throughout the term. The presentation analyzed how characters in *Candide* were representative of different perspectives on human reason and emotion as commonly conceived during The Enlightenment. The presentation further contextualized these analyses in the historical period and in regard to the biography of Voltaire. The student consulted numerous scholarly sources to support her argument and provided analysis that would be acceptable in a 3000-level version of this 2000-level course.

**Do you believe this project meets the standards of the honors option contract as described in the guidelines? Yes, I do.**
