Indicate the course NAME and CRN to which Honors credit may apply:

STAT 1401

Please indicate in detail how the conditions of the Honors Contract were or were not met. Attach additional pages as needed. The conditions of the Honors Contract were met by Sara completing data entry, statistical analysis, and thoughtful write up of this huge project.

Do you believe this project meets the standards of the honors option contract as described in the guidelines? Yes, Sara did a beautiful job of presenting an analysis of course evaluation surveys to a president of a small college. She spent many hours entering data and checking the data, and she had to learn each statistical analysis procedure involving hypotheses and conclusions. Then she worked to make a cogent report of all the analyses.
